STOCK MARKET SEMI-DEMORALIZED

Announcement from Washington Was a Shock to Speculators.

PRICES DECLINED SHARPLY

Buying for Support Occasionally Rallied the Market, But Sagging Tendency Revived. The Close Active and Easy. But Not at Lowest.

NEW YORK, Feb. 20.—The announcement by the Attorney-General of the inted Sistes that he believed the North-rin Securities Company infringed the nuitrust law and that he would ale a bill neguity in the Supreme Court, in accordance with instructions from the President in equity in the Supreme Court, in accordance with instructions from the President to test the question, overshadowed all ofter considerations in the stock market to-day. The acade interest manifested in this company by all speculators and, indeed, by all holders of securities, was vividly demonstrated by the effect on the stock market, and was the more notable since Great Northern preferred is the only stock remaining listed on the Exchange which is directly included in the Securities Company. Yet the whole market tell away sharply under heavy flquidation, with only a few unimportant exceptions. The stocks of the Transcontinental companies were naturally most affected, as the formation of the Northern Securities Company represented an effort to harmonize conflicting interests in that field. Great Northern preferred lost 64; Northwestern, 74; Bock Island, 55; St. Paul, 15; Union Pacific, 24, and Southern Facific, 25, Elsewhere in the list losses generally ran from 1 to 3 points, and considerably over that in many exceptional cases on the curb Northern Securities, when Issued, dropped over 3 points. The direct concern of such a variously assorted lot of securities in the welfare of Northern Securities Company is not very obvious, but the average speculator in flocks, and cospecially the professional trader, is deeply imbued with the conviction that all his week are the outprowth of the conflict for the Northern Pacific control last year, and it is only necessary for the readjustment of the arrangement made at that time for the stock market to regain the buoyancy that was interrepted by the May panie.

For some time there has been a deeprooted conviction among speculators that the Supreme Court was to throw out of court Minnesota's suit against the legality of the Northern Securities Company, the effect was extraordinary, the Coalers and the Gould Southwesterns being influenced. Januarder in the inhancial district. The selling movement swelled the dimensions of the trading during the first hour to a volume equal

JOHN SKELTON WILLIAMS, President, LEWIS D. CRENSHAW, Treasurer. Vice-Presidents:

JAMES II. DOOLEY, HENRY L. CABELL.

From January 1st, 1902, Mr. W. A. Witherspoon, who was for five years Stamp Clerk and Compact Manager at Richmond, and for five years subsequently Special Agent in the Southern States for the Caledonian Insurance Company of Scotland, will be associated with me in the conduct of the Insurance business at Richmond.

I return thanks to those who have hitherto favored me with their patronage, and beg to say that I am now, better than ever before, prepared advantageously to serve the interests of all who may be willing to commit their orders in this line to me for

The continued disastrous fire loss of the Companies requires now a greater excroise of brains and energy economically to secure proper fire insurance protection. I seek the accounts of those who, knowing the value of such protection, wish to buy it at the best rates obtainable.

The Companies represented by me have aggregate assets exceeding \$250,000,000, and among them are some of the strongest in the world.

ROBERT LEE TRAYLOR. INSURANCE,

COTTON MARKETS.

COTTON MARKETS.

NEW YORK, Feb. 20.—The cotton market opened easy with prices 26/3 points lower and continued to decline later in the morning under seiling of long cotton and vigorous bear pressure, all induced by weakness in the Liverpool market and by larger receipts at the perts than looked for.

The Southern spot markets failed to reflect the slightest weakness. May touched 3.45 on its first down turn, and then followed an uneventual course until the early afternoon when shorts unddenly became frightened by reports that expert clearaness would continue to far overtop port receipts. The market was found to be practically have of offerings, and from 8.46 May shot up to 8.55 in about as meny minutes as there were points advance. Prolittaking by ring longs later caused a partial reaction, but at the close the market was steady and net unchanged to 4 points higher.

8 13-16e.; middling gulf, 9 1-16e.; sales, 110 bales.

Cotton, quiet; middling, 8 15-16e.; net receipts, 605 bales; gross, 3,121 bales; sales, 110 bales; stock, 122-508 bales.

Total since September 1st-Net receipts, 6, 271,930 bales; expert to Great Britain, 2,418,997 bales; to France, 609,117 bales; to the Continent, 1,928,350 bales.

PETERSBURG, VA., Feb. 20,-COTTON-Market firm at Sc. for good lets.

COFFEE MARKET.

COFFLS MARKET.

NEW YORK, Feb. 20.—COFFEE—The market for coffee futures opened stendy and unchanged and for the balance of the foremon was speculatively flat with sentiment favoring neutrality for the time being. In the late ression an easier feeling developed. The closed was easy with prices net 5@10c. lower. Total saies were 17,500 bags. Spot Rio, easy and dail; No. 2 invoice, 5%c.; mild, quiet; Cordora, 8@12c.

CHICAGO MARKET. CHICAGO MARKEL.

CHICAGO, ILL. Feb. 20.—Grain markett secsawed again to-day in a jagged fashlon. The miling teodencies were for lower prices, but the small breaks brought in enough buying to prevent indicried declines, and the close was rather firm. May whent closed unchanged; May cornifect, in higher, and May eats ice, up. Provisions closed a shade to loe, lower. Visions closed a shade to 10c. lower.

The leading futures ranged as follows:
Open. High. Low. Clos.

TOBACCO NOTES.

Slight Break in Lugs-Several Visitors in Town.

Common smoked lugs took somewhat of a tumble yesterday and Wednesday in several of the Richmond warehouses. This break, it is thought, is only tempo-rary, and the price will doubtless shortly

regain its advanced position. Suncured lugs are still selling at big prices.

The cause of the drop in smoked lugs is an overstocked market. Only a certain amount of this quality of tobacco is used here, and when more than is needed comes in the price falls. This has been the case for the past week. It is probable that by next week the surplus will be exhausted.

Great efforts are being made by the to-bacco warehousemen of Richmond to have more of the weed planted right around the city and to improve the quality of such as is already grown in that section. The movement, if the farmers respond, will have the effect of increas-ing the receipts here and of establishing a finer quality of tobacco in the neigh-boring.

The special variety of sun-cured which

The special variety of sun-cured which some of the warchousemen are urging upon the farmers is what is known as "Orinoco" tobacco. Medley Pryor is another kind which they think ought to be grown. Some of the warchousemen are so much interested in this matter that they are furnishing the farmers with the necessary seeds and have offered to give them any instruction they need in undertaking the raising of the new species of the weed. Others are catching the farmers as they come into town and are advising them upon the matter.

Mr. W. H. Smoot, of Durham, N. C., was in the city yesterday. Mr. Smoot is one of the oldest members of the trade. About twenty-five years ago he was engaged in the tobacco commission business in this city.

The sales on the Richmond breaks to-day will be of fairly good size. The sales yesterday were as follows: Stonewall Warehouse-6,410 pounds; highest price, \$16. Shockoe Warehouse-14,520 pounds; highest price, \$15. Crenshaw Warehouse -31,815 pounds; highest price, \$15.50. Shel-burne Warehouse-22,850 pounds; highest price, \$20.

Mr. W. L. Petty, of Rocky Mount, is still on the market, making heavy pur-

Mr. J. S. Hatchett, of Blackstone, Va., was in the city yesterday. Mr. Hatchett says that the tobacco crop in his neighborhood is about half exhausted.

OIL IN THE VALLEY.

Mr, Robson is Happy Over Brighter Prospects.

Mr. James T. Robson, member of the Mr. James T. Robson, member of the House from Rockingham county, is an enthusiast over the undeveloped oil land of the State. Mr. Robson ventures the opinion that the Valley of Virginia is rich in (to use a technical phrase) "hy-

MARKET IS HIT BY ROOSEVELT

There Was a Slump at the Opening,

BUT A REACTION

And the Clese Was Not as Low as Might Have Been Expected-American Cora Was Higher

This market has had another blow between the eyes, and while it staggered for a while, it was not utterly cast down. It is a market of splendid endurance. Less than a year ago it had a panic, and while the whole market was demoralized for a while, it recovered and prices were soon as high as ever. Then it was hit by the steel strike, and again by the shooting of the President; and again by the assult upon the Northern Pacific merger by the Governor of Minnesota, and finally, when it had practically recovered from this, the President of the United States instructed the Attorney-General to enter suit against this company with a view to dissolving it.

This blow came as a complete surprise to the street, and naturally there was considerable liquidation. London began to sell before our market opened, and our opening was at from one to three points below the close of the day before. The

opening was at from one-to three points below the close of the day before. The sales appeared to be mostly of long stocks, and large orders were said to have been sent by speculators who do not frequent the Exchange.

A WALL STREET VIEW.

Edward Sweet & Co. make the following report of the transactions of the day to Messrs. Scott & Stringfellow:

"The heaviest selling seemed to be in Southern Pacific, Union Pacific, St. Paul, the Steel stocks and Tennessee Coal and Iron. On the declines there seemed to be a good deal of support, notably in the Steel stocks, of which Keene, brokers, were quite heavy buyers. In Southern Pacific it was believed that the pool which is reported to have been formed by Mr. Keene sold some 20,000 shares, and considering the heaviness of the selling and the selling by London houses, the stock showed a good deal of strength. After the first hour the liquidating movement diminished there was considerable covering of shorts, resulting in a moderate rally. During the afternoon the movement in prices was extremely irregular, and the market closed generally somewhat above the lowest prices of the day, but in almost every instance well below the closling of yesterday.

"Copper was notably firm, the extended short interest in it selecting the opportunity presented by the weakness in the rest of the market to diminish their contracts. Comment in regard to the President's action was naturally of an adverse nature, but in some quarters it is maintained that it is just as well to have a test case of the scope of the Sherman anti-trust law, and should the decision be in favor of Northern Securities case it will remove once and for all time apprehensions in regard to attacks on corporations under this law.

"In the meantime until the decision be infavor of Northern Securities case it will remove once and for all time apprehensions in regard to attacks on corporations under this law.

"It has have a securitie and stown to 100, and the securitie and St. Paul suffered most, and the former went down to 1

House from Rockingham county, is an enthusiast over the undeveloped oil land of the State. Mr. Robson ventures the opinion that the Valley of Virginla is rich in (to use a technical phrase) "hydro-carbons."

"We cannot expect the tremendous output of the Texas oil field, where the lignite beds are 700 miles in length and over 500 miles wide," said he. "Still, ware led to believe by those in a position to know, and who have examined the situation closely, that Rockingham county, for instance, presents splendid possibilities and opportunities to the investor. I have noted oil in various places tor. I have noted oil in various places after a heavy rain and surely it must come from below, forced to the hurface. Every one is familiar with the face. Every one is familiar with the gas springs," so called, and where gas exists oil is not far off, 2x the two go together."
